Hakim,

Ηακιμ,

WILT jij jouwe naam in mijn verhaal, in mijn boek hebben?

Answer: Yes *Ηαδζ<sub>π</sub>*

2nd moon orising

4the moon phase .

In our new HQ something a digitalinfo transferfreeze on the new identity gridsystem, IS HQ!

The group of Vircingetoris doing the plastic surgery, the bodily fluid the bone structures, the gene manipulation, the new identitycomplex digitalinfo randomly algorithmically modulating I.D.Transfersystem was suddenly jammed!

The immediate suspect is the Internet.

Vircingetoris's identity was suddenly in limbo, freespace, inert, frozen, blocked, access denied, and hopefully temporarily suspended.

The trick was to, as usual, transfer Vircingetoris's identitycomplex into a new body. This time, and very right now, is, pray the gods & goddesses, in temporary suspension.

Identitycomplex digitaltransferinformation has a short halflife.

The group of Vircengetoris is scrambling.

Geniatrist 1: "What the hell!?? Do we got a stalkertiger?"

Geniatrist 2: "Nothing is also uncertain."

Geniatrist 3: "Yah, there's no proof."

Geniatrist 4: "Let's keep our minds on getting him back,

shall we fellow hackers?"

They check the algorithm modulation via  
all computer channels: (The **SPYKILLS** are  
temporarily suspended.)™

Harddisk,

CD's, All Software

Internet, All manually checked at most

base levels,

bit & byte data, double checked all above,

All memory systems, triple checked all above,

All hardware, all external communication to

the outer

world was temporarily changed at the  
above time.

HAKIM a fine gieniatrist discovers an  
algorithmical loop phase! Everybody cheers.

Meanwhile the group of Vircingetoris took one day  
for each of the above stated actions.

On the eighth moon phase the loop was discovered.

Ofter the 11 moon phase actions with all systems sufficiently checked, the cause is seen as a mutatiuous program.

The cure is unknown.

There is always some jihad, maverick, deregante who fouls with weel done plans (if they were well done).

A geniatrix, MIKE, finds by accident through inserting a certain CD into activeidentitycomplex on the computer screen, still internally contained, temporarily suspended.

This CD had a particular Filestructuresystem that broke loose the sticky phase loop.

With mind warping satisfaction, spreading smiles on the faces of the geniatrixes, Vincengetoris's energycomposition holographs out of the computer screen, activedigitalinfo reformed into activedigital flesh & blood.

Vincengetoris delays further strikes for a three moon phase meditation, fast, out-of-body projection to ascertain the whereabouts of a stalkertiger.

The gods & goddesses had generosities.
